

Jill Hazeldine

Jill Hazeldine brings more than twenty years of experience in working with non-profits, national associations, Fortune 500 companies, and local area campaigns. She has a diverse background in fundraising, communications, marketing, development and research.

In April 2013, she was named director of the Public Health Institute of Oklahoma to draw upon her experience in business, health care and nonprofits. Prior to that, Jill worked has worked with organizations and campaigns including the Salvation Army, youth sports organizations, and for senate and congressional races. She served as an Account Executive for the national public affairs firm working with some of their largest clients including the American Dental Association, National Association of Realtors, National Restaurant Association, American Nurses Association and Abbott Laboratories.

She established herself in fundraising by directing six consecutive record-breaking campaigns as Director of Campaign and Communications for the United Way of Norman. She chaired the local YMCA Capital Campaign Foundation Task Force for the million dollar capital campaign. Her talents were recognized when she was named *"Oklahoma's Young Careerist of the Year"* by Business and Professional Women. She began her career a marketing associate at Baptist Hospital which is now, Integris Health.

Jill serves on the board of the Norman Rotary Club and is Co-Chair of the Public Relations Committee. She is a member of the United Way of Norman Health Council, American Marketing Association, and the Norman Chamber of Commerce. She recently completed the Oklahoma Center for Nonprofits, Nonprofit Management Certification Program.

She is a graduate of the University of Oklahoma with a degree in Journalism/Public Relations. When time permits, she is a freelance cover story writer for the Norman magazine.

Rhea Hughes, M(ASCP)^{CM}, MPH

Rhea serves as a Communication Specialist for the Public Health Institute of Oklahoma (PHIO). She began her professional career performing environmental wet chemistry analysis before moving into the field of Clinical Microbiology and obtaining certification as a Medical Technologist in Microbiology from the American Society of Clinical Pathology. As a Clinical Microbiologist, she worked in both the public and private sector, spending two years at the Grand Junction VA Medical Center in Colorado.

In 2009, she became a Consumer Safety Officer for the Food and Drug Administration and obtained Level I Investigator Certification from the Office of Regulatory Affairs, Division of Human Resource Development. Fueled by her background in clinical microbiology and passion for food safety, she began to shift focus toward the broader reach of public health work. After previously serving as an intern for PHIO, she is honored to have the opportunity to further her career in public health and contribute to the promotion of health in Oklahoma.

She received a Bachelor of Science degree in Biology from Eastern Washington University in June 2005 and a Master of Public Health degree from The University of New England in May 2016.
